DuroPro Cork Barrier:

Cork Barrier is basically a skin for your home. It is paint that is cork and water resin based - 80% of it being cork. It is applied to the outside or inside of homes and buildings creating a breathable, waterproof, thermic, sound deadening layer. It is resistant to sea salt, fungi and UV rays. Regardless of the outside temperature, Cork Barrier maintains a constant inside temperature. Put it on paths, walk ways and patios - it is antislip!

Class A fire rating is available.

Absorbs up to 18 decibels
